# Pop-Up Book Tutorial:

## What you will need:

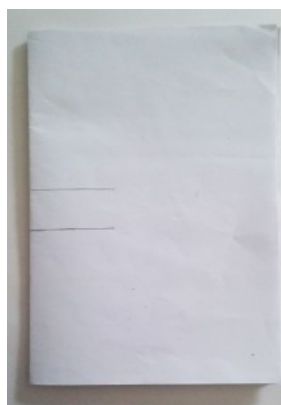

1. A4 papers or cards
2. Pen/pencil
3. Colouring-in materials (crayons, paint, felt-tip pens...)
4. Scissors
5. Glue

## Step 1:

Plan out your short story, using a storyboard. This storyboard template is perfect for this task! Remember to keep the story and illustrations simple. At this stage you should also plan out the pop-up elements of your pop-up book.

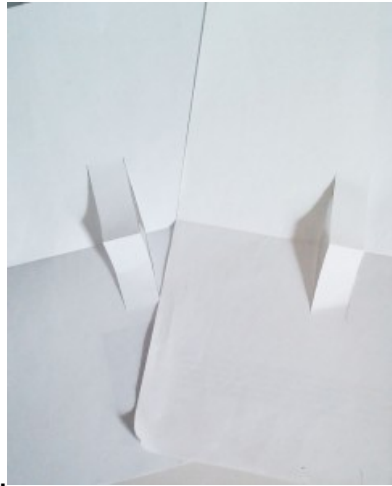

## Step 2:

Fold all the A4 paper you need for the actual story pages in half (excluding front and back cover). Pile all these folded papers together equally and draw 2 parallel lines on the top paper. The lines should be around 5cm inwards, with a gap of 2.5cm between them.

## Step 3:

Now cut those parallel lines out. Make sure an adult is helping you with this part and the next step! All your story pages should have cuts or slits in them as shown. Pull the cut part outwards.

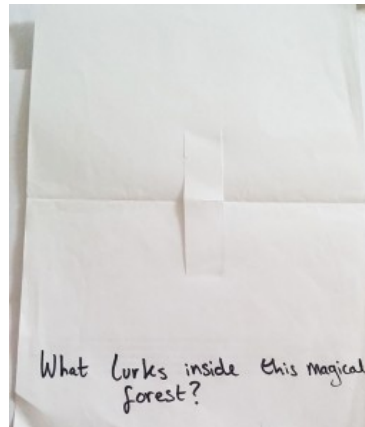

**Step 4:**

Make your illustrations on a separate paper. You can fold the paper into 4 parts to ensure the illustrations don't end up being too large for your pop-up book. You should have one illustration per page for your pop-up book. Colour your illustrations in and cut them out:

**Step 5:**

Write in the story text at the bottom of the folded papers. Use a pencil first and then you can go over with a pen. Or if your really feeling confident you can use a pen straight away!

**Step 6:**

Colour in the background for each page, leaving the tabs blank. You can use any design and any colouring-in materials you want.

**Step 7:**

Apply glue to the bottom part of the tab and stick your illustrations onto the correct pages. Carry on for each page and illustration in your pop-up book.

### Step 8:

Glue pages back to back, as shown in the image. Ensure you do not stick the tabs to the pages (this will stop the illustrations from popping up). Your pop-up book is almost done now.

### Step 9:

Finally, make the book cover by folding another A4 paper in half. Design your front and back cover and colour it in. Then stick this page to the other pages to form a book cover.

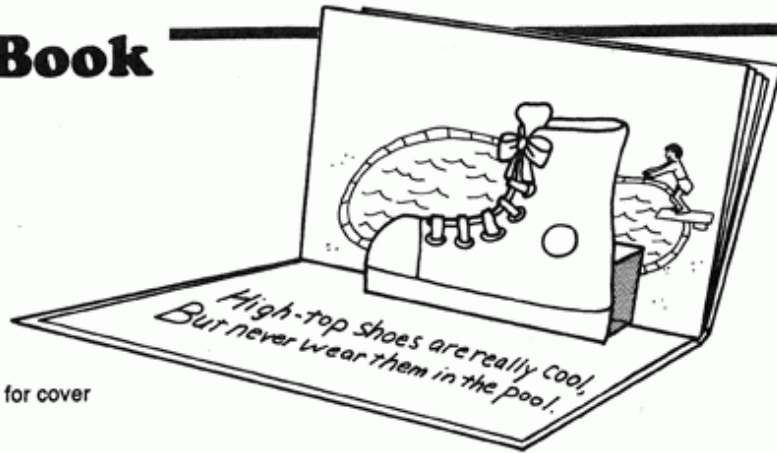

### Step 10:

Your pop-up book is now complete! Have fun reading it! You can also create easy pop-up cards by following this tutorial for any occasion, such as Christmas or Halloween (you will only need 2 A4 papers for a pop-up card).

# Pop-up Book

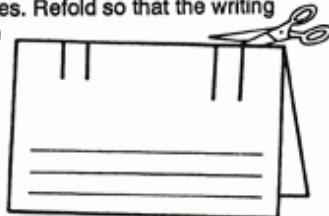

## Materials

- reproducible page 57
- scissors
- drawing paper
- crayons, markers
- 12" x 18" heavy paper for cover
- glue

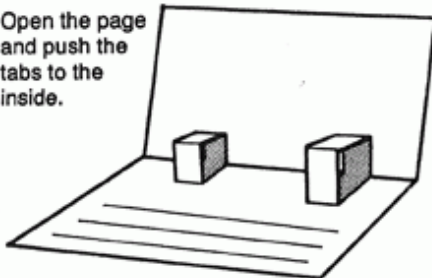

## Instructions for Making the Book

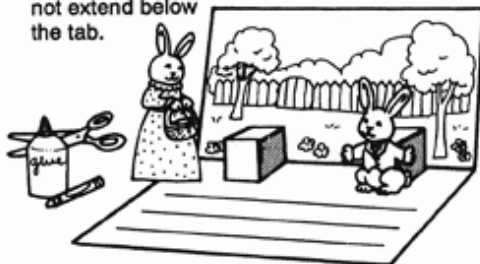

1. Fold reproducible page 57 in half and cut along the solid tab lines. Refold so that the writing lines are on the inside. Close the page and press firmly.

2. Open the page and push the tabs to the inside.

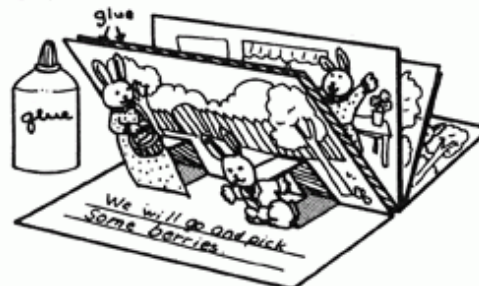

3. On another piece of paper draw the objects you want to pop up. Cut them out and glue them to the tabs as shown. Make sure the picture does not extend below the tab.

4. Write a story on the lines provided.

5. To assemble the book, glue the completed pages together as shown.

6. Use one large sheet of heavy paper or tagboard to make a cover as shown. Glue it to the front and back pages of the book.
